

# DOES A NEW STOVE IMPROVE AIR QUALITY AND HEALTH?

## RESEARCH STUDY:

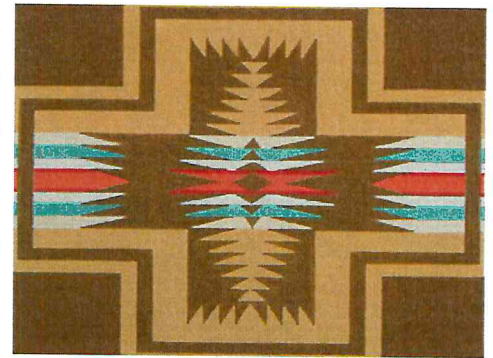

We are looking for research participants in Shiprock who qualify for a new stove under the Four Corners Power Plant Settlement Agreement. If you are planning on replacing your stove through the settlement, researchers would like to monitor the air quality inside your home and ask you questions about breathing problems.

## How do I participate in the research study?

- Must use an old wood or coal stove as your main source of heat
  - Live in Shiprock, NM
  - Low income
- Fill out an application and qualify for a new stove under Four Corners Power Plant Settlement
  - Complete research questionnaires and forms
  - Let researchers monitor your air at home

Call Navajo Nation EPA @ (928) 729-4093

Participation in this research study does not affect eligibility for a new stove under the settlement.
